

D4Shower®

Eliminates legionella and other bacteria and virus in the shower water

With the easily installed D4Shower® the biological contamination of the shower water is eliminated in a point-of-use installation. The water purification is made with our patented and maintenance free UV-LED system that without using chemicals or other hazardous substances.

The environmentally friendly technology is very energy efficient with high purification capacity. D4Shower® is easily connected directly after the shower mixer. With its built-in WiFi the unit can be monitored over Internet and can be upgraded over Internet and the unit will send alarms if it fails to operate.

Features

- Small and efficient "point-of-use" purification
- Energy Efficient – only in use when the water is flowing
- Purifies 720 l/h
- Life length up to 6 000 000 liters of water
- Maintenance free and free from chemicals and mercury

Technical data

- Weight: 1,1 kg
- Dimensions: Ø50 x 270 mm
- Power Source: 12-24 VDC
- Cable Length: 8 m
- Energy Consumption: 10 W when water is running
- Connection: G15 ½"
